This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

55TH CONGRESS, 1st Session. } HOUSE OF REPRESENTATIVES. { DOCUMENT No. 96.

55TH CONGRESS, 1ST SESSION

MARCH 15 – JULY 24, 1897

INDEX

TO THE SUBJECTS OF THE

DOCUMENTS AND REPORTS

AND TO THE

COMMITTEES, SENATORS, AND REPRESENTATIVES PRESENTING THEM

WITH TABLES OF THE SAME IN NUMERICAL ORDER

[Being the "consolidated index" provided for by the act of January 12, 1895]

Compiled under the direction of the
SUPERINTENDENT OF DOCUMENTS

WASHINGTON
GOVERNMENT PRINTING OFFICE
1898

LIBRARY OF THE
LELAND STANFORD JR. UNIVERSITY.
a.38337.

NOTE

Two indexes have been issued by this office in accordance with the sixty-second section of the act approved January 12, 1895, providing that "the Superintendent of Documents shall . . . prepare and print in one volume a consolidated index of Congressional documents." The present volume is the third of the series, and has been compiled upon the same general plan as were the two preceding indexes. Under the name of each committee of the Senate and the House of Representatives will be found the reports made by that committee. Under the name of each Congressman will be found documents and reports submitted to Congress by him. The documents and reports are entered again under their subject or subjects. A numerical list of Senate documents and reports and House documents and reports is added, as was done in the Index of the second session of the Fifty-fourth Congress. By means of this additional list, a document or report may be identified by number, as well as by author, title, or subject. The numbers of the volumes of the Congressional set in which the documents and reports will eventually be bound are given in this Index. No volume number is assigned to the House reports, because they will be bound in a single volume. In the schedule of volumes appended to the Index the serial numbers adopted by this office for the Congressional set have been added. This has not been done in the two preceding indexes.

This Index is not at all an index to the daily action of Congress. The Congressional Record contains such information, and in the Record there is a valuable index to proceedings. A history of all action taken upon bills and joint resolutions presented to Congress is found in the Senate and House Journals, and in the index to the Congressional Record, the arrangement being by the numbers of bills and resolutions. Bills and resolutions are not indexed in the present volume, but under entries for committee reports made upon them, the numbers of the corresponding bills or resolutions are added, except in the numerical list. This Index covers Congressional documents and reports, but does not include other publications of the Government. Such departmental publications are included in the Document Catalogues issued by this office, which contain also in more complete form the matter covered by the indexes.

A special session of the Senate was held, March 4–10, 1897. Only one executive document was transmitted to the Senate during that session. The document is included in this index. No committee reports were made during that period.

L. C. FERRELL,
Superintendent of Documents.
